Synthetic Grinding Fluid

Description

Castrol Syntilo 9902 is a synthetic fluid specially formulated for grinding and light-duty machining of ferrous metals. Syntilo 9902 settles chips quickly to provide free-cutting action, reduce cycle times and improve G-ratios. Syntilo 9902 provides corrosion protection and bioresistance.

Advantages

- Rejects tramp oils to the surface of the fluid for easy skimming
- Resists rancidity and maintains corrosion protection in hard water
- Protects against bi-metallic corrosion caused by iron-copper or iron-aluminum couples
- Inhibits microbial growth to extend fluid life in central systems and individual sumps
- Settles chips quickly to prevent grinding wheel build-up and maintain a clean working environment
